

WHAT CHANGES ARE WE MAKING?

You will start to see new things happening, so you can try getting to HBDHB locations differently:

- changes to our parking management
- new bus services
- priority car parking and bike racks
- expanding subsidised transport, not only for patients, but also for staff

A review of parking facilities on the hospital campus looking at:

- better reconfiguration
- options for allocating parks for certain user groups such as patients, mobility, short-term, priority car pool and staff etc.

ACTIVELY PROMOTE

PUBLIC
TRANSPORT

CAR
POOLING

ACTIVE
TRANSPORT

INTRODUCTION OF A NOMINAL PARKING FEE

From 2017 there will be a parking charge.

\$1 per
day
for staff

\$1 per
3.5hr
patients/
visitors

The money raised from the parking charge will go back into better parking, more facilities and more transport choices.

Hawke's Bay Regional Council / Go Bus has agreed to re-introduce a Napier-Hastings express service (via Taradale) with a new more convenient timetable to fit to hospital shifts. You will see these changes occur from Monday 26 September 2016.

A review of all cycle facilities is taking place on the hospital campus to identify better locations and more secure cycle racks.

DON'T FORGET TO KEEP AN EYE OUT FOR OUR PROMOTIONS AND COMPETITIONS AND KEEP CHECKING THE GO WELL PAGE FOR MORE INFORMATION

TRAVEL PLAN SURVEY RESPONSE

GO WELL

Hawke's Bay District Health Board (HBDHB) has adopted a travel plan called **Go Well**.

A travel plan is a package of activities designed by the DHB to encourage safe, healthy and sustainable travel options to its locations.

WHAT'S IT ALL ABOUT?

You may remember being asked to take part in a survey last year, which asked about your travel preferences and travel improvements that you would like to see happening at Hawke's Bay hospital.

Your feedback was important in developing Go Well, which will guide the future of travel for us.

WHAT WE FOUND OUT:

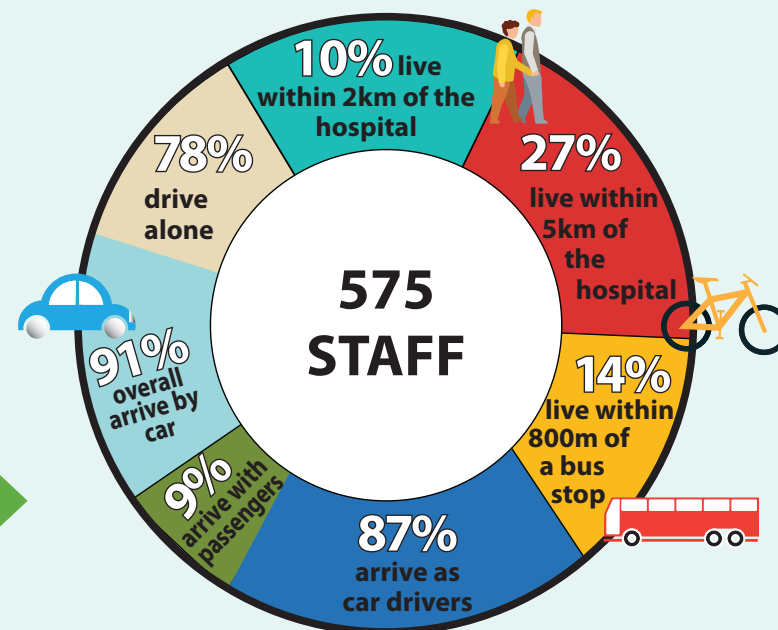

- patients and staff had little choice except to drive to health services.

21% STAFF:

- were interested in coming to work differently.
- expressed an interest in public transport, carpooling/ride-sharing and cycling.

15% PATIENTS:

- were interested in public transport and carpooling/ride-sharing.

If everyone was able to travel differently just once a week or fortnight, then we could free up parking for those who really need it.
